Bioremediating Parts Washers

ROWASHER
ECO-FRIENDLY PARTS WASHERS

Making parts cleaning a quicker, safer, and more pleasant experience, our eco-friendly, self-recycling parts washer, ROWasher, offers a powerful alternative to solvent, boasting a host of "green credentials".

Using the clever science of bioremediation, ROWasher dramatically reduces waste fluid generation, bringing significant savings and lowering impact on the environment.

- Solvent-free, pH neutral cleaning, heated to 42°C
- Self-recycles using clever "oil-eating microbes"
- Minimises waste, controls costs
- No expensive service contract
- Low energy consumption
- Operator safety
- User friendly, easy to maintain in-house

Vehicle and Workshop Solutions

25 years working with Emergency Fleet Workshops has enabled our in-house chemists to develop a range of specially selected Workshop & Cleaning Solutions to effectively clean, protect and maintain any size or type of vehicle. All designed to increase efficiency, safeguard the well-being of technicians, while at the same time lowering costs and raising presentation standards.

- Traffic Film Removers
- Interior Valeting
- Maintenance Products
- Everyday Workbench Essentials
- Pre-Wash Soak Solutions
- Finishing Products

Automatic Parts Washers

Designed to degrease a number of parts in a short space of time or clean components with hard-to-reach areas. Our aqueous spray wash machines provide automated cleaning that leaves technicians free to work on other tasks, increasing workshop productivity and saving on costs.

Use with our specially designed - Hotwash Low Foam solution, formulated by our in-house chemists. Contains rust inhibitors and is no hazard to painted surfaces, acrylics, non-ferrous metals and soft sealants. Solvent & VOC-Free.

- Multiple components washed in one cycle
- Minimal Operator involvement
- Double spray bar for faster total clean
- Non-hazardous degreasing
- Oil skimmer keeps fluid cleaner for longer
- Sizes to suit any cleaning requirement.

Service Equipment

Exposure to brake dust is a known hazard. Inhalation can damage employee's health. The Rozone Brake Washer stops brake dust from being dispersed into the atmosphere by saturating the brakes with non-hazardous, aqueous-based cleaning solution. A safe alternative to solvent, this mobile, air-powered cleaning system is designed to safeguard Technician's health.

Rozone is the UK partner of Romess Brake & Clutch Bleeders. Approved by Mercedes, BMW, VW, Ford, Volvo, and Renault and suitable for motorbikes, cars and vans, our Brake Bleeders enable technicians to fulfil brake servicing tasks faster and more efficiently, saving both time and money.

- Fast, simple 5 minute operation
- Suitable for motorbikes, cars, and commercial vehicles
- No compressed air
- Large capacity tank reduces plastic packaging waste
- Refill without disconnection from vehicle
- No risk of air getting into braking system

REDUCE THE USE OF HARSH CHEMICALS

In today's increasingly legislative environment, there is a demand for cleaning, pollution control and other innovative technologies that benefit employees, society and the environment – at the same time delivering a reduction in operating costs and improving efficiency.

Our aim is to help companies reduce the use of harsh chemicals in their cleaning processes, safeguarding the health and safety of staff and customers, whilst lowering their impact on the environment.

The demand for our bioremediating parts washers and water-based or safer solvent solutions has developed significantly since we began in 1996 and we are proud to work with a wide range of customers including Aerospace, Automotive, Engineering and Manufacturing, Defence, Cycle, Plant Hire, Government and Municipal and many more.

“The ROwasher has a much better cleaning capability than the previous parts washer. The eco-mode makes the machine cheaper to run. The job is made far easier having the ROwasher machine as opposed to using cleaning spray and rags. Our workshop would be lost without it.”

Cambridgeshire Fire and Rescue

FIND THE RIGHT SOLUTION FOR YOUR WORKSHOP

- Fast, powerful, efficient cleaning with no hazard
- Solvent-free solutions
- Safety, health and environmental benefits
- Improve workshop efficiency
- Minimise waste
- Reduce Costs
- Manual and automatic solutions
